Re: Nabisco Demolition

Dear Glen Rock Staff, Students and Parents,

On March 29th, Dr. Charleston sent a letter to the community related to the scheduled demolition of the Nabisco factory scheduled for April 15, 2023. In part, this letter read as follows:

Should the demolition occur as scheduled, the district, out of an abundance of caution, will use one of its remaining emergency closing days for Monday, April 17th, 2023. The district will not make this decision until the building is actually demolished. Should the demolition occur as planned, the district will send out a School Messenger alert on the morning of April 15th, 2023 informing the community that all schools will be closed on Monday, April 17th, 2023. If there is a delay in the demolition, schools will open as normal on April 17th, 2023.

We have learned that the April 15th date of demolition has been canceled. **The District will be open as a regular school day on Monday April 17th.**

A new demolition date has not yet been scheduled. According to the Glen Rock Borough's [Nabisco Demolition FAQ](#), notification of a new implosion date will be given to the community two weeks in advance of the new demolition date.

Sincerely,

A handwritten signature in cursive script that reads "Gregory Van Nest".

Gregory Van Nest
Assistant Superintendent of Schools
